

**Name : Vaishnavi Vasant Fulsaundar.**

**Address : At. Ahmednagar**

**Mobile : 9604403276**

**Email : vaishnavifulsaundar0707@gmail.com**

**Objective :**

Seeking a responsible position in an organisation ,which gives me a chance to improve knowledge,Enhance my skills and enable me to strive towards the overall developmentof the organisation .

**Educational Qualification :**

Standard	Institute	Board/university	Percentage	Class
<b>MCS</b>	Abasaheb Garware college,pune	Savitribai phule Pune university .	78.20%	First class with distincti on..
<b>BCS</b>	New arts,science and commerce college,ahmednagar	Savitribai phulepune university.	70.69%	First class with distincti on.

**Programming Languages :** TypeScript, JavaScript,Java.

**Web Technologies :** HTML/HTML5 ,CSS2/CSS3,SCSS.

**IDE & Tools :** Visual studio code ,Eclipse.

**Database :** MYSQL ,MongoDB.

**JavaScript Libraries :** Angular , Bootstrap.

**Vision Control :** Github.

**Testing techniques :** Unit testing using karma , Jasmin.

**Tools & Technologies :** Angular-CLI.

**Work history :**

**Company name :** Rubiscape Private Limited( July 2023-February 2024).

**Job role :** Associate Software Engineer.

**Domain Knowledge :** Angular.

**Responsibilities :**

- Worked on enhance functionality of product and solve bugs related to the product.
- Implemented complex features and functionalities within the **Angular framework**, ensuring **responsive** design, optimal performance and user experience.
- Developed widgets for dashboards using the **Highcharts library**.
- Implement custom visualizations and interactive features using **Canvas** and **GoJS** to enhance user engagement.

- Applied various **Bootstrap** features like modals, dropdowns, buttons, forms etc.
- Actively participated in daily stand-ups and **sprint planning** meetings, contributing to a collaborative and **agile development environment**.
- Streamlined data retrieval and updating processes by seamlessly integrating **RESTful APIs** into Angular applications.

**Company name** : Ainosoft Private Limited  
**Job role** : Junior Software Developer  
**Experience** : Jan 2022 - Jan 2023  
**Domain Knowledge** : Java, Angular, Git, Docker, Javascript, Typescript.

#### PROJECTS :

##### ▪ **Narrature**

It is an online library system for the students, where you can read the books in epubform with the better user experience.

##### **Responsibilities :**

- Uses **solar** and **apache tika** library for book uploads.
- Design pages using **figma** and then did it in **Angular** using **HTML, CSS, Javascript**.
- Applied **dependency injection strategies** for modular and maintainable code.
- Ensured a **responsive user interface** for seamless user experience.
- Integrated **RESTful APIs** into Angular applications, optimizing data retrieval and updating processes.

##### ▪ **Appops.org**

AppOps is an opinionated Java based framework to assist developers in building high performance microservices using simple and straightforward constructs.

##### **Responsibilities :**

- Implementation for UI screens as per project requirements.
- Working with other technologies like **Angular, Java**.
- Designed **reusable, responsive** and **reliable** code as per client's requirement.
- Conducted thorough unit testing using **Jasmine and Karma**.

##### ▪ **no-code template driven software development**

It is a software where the user can just drag and drop the elements like textbox, button etc. and make applications look and feel as he wants to design.

##### **Responsibilities :**

- Developed and maintained web applications using **Java, HTML, CSS, and JavaScript**.
- Utilized various development tools such as **Eclipse, Github, vscode** to manage codebase and track progress.
- Developed a small-scale Angular application as a personal project, demonstrating a commitment to continuous learning and improvement.

#### **Technical highlights :**

- Proficient in **TypeScript, JavaScript, and Java(Spring Boot)** for versatile language capabilities.

- Expertise in web technologies, including **HTML/HTML5**, **CSS2/CSS3**, and **SCSS** for robust and stylized web development.
- Advanced skills in front-end development using **Angular 14**, with a focus on **Material Design** and **Bootstrap** for modern and **responsive** user interfaces
- In-depth knowledge of databases, encompassing **MySQL**, **MongoDB**, and **PL/SQL** for efficient data management.
- Utilized **GitHub** for version control, ensuring collaborative and organized software development practices.
- Proficient in testing methodologies with **Karma** and **Jasmine** to maintain code integrity and reliability.
- Accomplished in server-side development using **NodeJS**, **ExpressJS**, and **Spring Boot** to build robust and scalable applications.
- Cloud proficiency in **AWS** and **Docker**, leveraging cloud services for scalable and flexible deployment.
- Proven experience as a web developer with expertise in **Highcharts**, **Canvas** and **GoJS**.
- Adept in project management methodologies such as **Agile** and **Sprint** Planning for efficient and collaborative project execution.
- Design and prototyping expertise using **Figma** to ensure seamless and user-friendly interfaces.
- Designed and implemented **RESTful APIs** using Angular HttpClient for efficient data integration and communication
